ABRIDGED PROSPECTUS. THE OBJECT OF THIS COMPANY IS to establish Railway communication between victoria and Esquinalt, and thereby to provide for passengers and manualt, and thereby to provide for passengers and the which now exists.

This end attained, the delay and expense now necessarily attending vessels of large formage, bound for Victoria, but compelled to discharge their cargoes at Esquinalt, will at once be obviated.

Esquinalt, naturally the commercial port of the City of Victoria, would occupy, in nearly every respect, the same position which Sandridge does to the compelled to the same position which Sandridge does to the marked adaptability as the present terminus for Ocean Steanships (several of which connect monthly with San Francisco); the certainty of its being the future terminus of the line of Steaners between this port and Pauama; its commanding importance as Her Majesty's principal Naval -Station on the Pacific, when taken in connection with its deep and capacion have the commerce which is now so rapidly extending.

The Railway will be built in an inexpensive man mer, a due regard, however, being paid to durability and completeness.

The Hine of Road being nearly level throughout, such presenting no engineering difficulties of any cipities in months from the day when ground is first broken, the line will be open for traffic.

The Reports of the Lagineer and Surveyor leave no doubt that the capital proposed to be subscribed will fully cover the cost of construction, purchase of Locomotives, Rolling stock, etc., and leave between Victoria and Esquinalt, and confident of THE OBJECT OF THIS COMPANY IS

sides a considerable curplus for working and other expenses.

The Directors calling to mind the past traffic between Victoria and Esquimalt, and confident of that which is sure to follow (so soon as the fact of the richness of our gold-fields becomes more widely known), do not hesitate to assert that the returns from an investment of capital in an undertaking of this mature, cannot hat prove highly remainerable at the temporary offices of the Company, at the office of Mr. J. J. Cochrane, Government street Applications for shares must be made on or before the lotth day of December next.

Off for the Mines.

Already we hear of preparations for starting for the mines. Some expect to start within a fortnight-by the first of Februaryothers the first of March-and still others in April and May Quite an exodus may be looked for in March, if the weather should remain mild, and the spring appear favorable to mining operations. They will form the main advance guard of this year's emigration to Cariboo. They will doubtless succeed in their enterprises. Their claims either open or partially open will enable them to get early at work. But the great fear is that they may be followed by hundreds or thousands too quickly. Consequently our object at present is to warn intending miners from ng up to Cariboo too early in the season. The experience of last year—the early exodus to and from the mines-the backwardness of the season-the want of provisionsthe impossibility of prospecting the country till the snows disappeared; and the still greater impossibility of getting enough provisions with money on hand, and the utter impossibility of doing so without moneytaught the country-intending miners in par ticular-a lesson that it ought not to forget very soon. Hundreds returned from the mines simply because they went too early. They could neither prospect, mine, nor live as they had neither money, climate, provisions, nor experience in their favor. We fear that some such disaster may occur this year. Hence we would give a timely warning. Those who have claims open, provisions stored, or friends who will aid or employ them, will go, and go early, to the mines. Nothing will stop them. The great danger, however. is that those who have neither, will start be fore Cariboo is prepared for them, or before they are properly prepared for Cariboo. It such should occur—if men will not be taught by experience, but will pitch themselves headlong into difficulties, they will only have themselves to blame for their folly and want of reflection. It they plunge themselves into distress palcable to every one not carried away by an excitement, they will not be en-titled to a higher degree of sympathy tha we bestow on lunatics. We repeat for the information of all concerned what we published last winter and spring, that no one-no miner-except he has been in Cariboo, had his claim open and provisions stored—no one ought to go to Cariboo before the middle of

June or the first of July.

The stock of provisions in the mines will barely supply those who have claims till the trains arrive about the middle of July. It none other but those go up before the time we have recommended for starting, provisions will probably not exceed 80 or 90 cents per pound. But let the mines be crowded with miners-et a genuine "rush" take placeand provisions will rise to \$1 50 per pound, and shall not without great difficulty, be had even at that rate. Hundreds will have way back, and all will neither promote their own personal interests nor the interests of

the country at large. The same amount of eroaking, gloomy tales, "no mines", will be retailed by the disappointed as they did last year; and yet the primary cause of the whole would be traced to their own indis cretion-to their refusal to follow the advice of those who best knew the condition of the country. " Haste to get rich usually ends disastrously," and haste to get a rich claim in Cariboo next spring is bound to prove disastrons, if due caution be not taken as to the time of starting. We would impress on all who have no certainty in Cariboo to delay their departure till summer. The middle of June is early enough. Nothing but loss can follow an earlier start. Let them remain here or anywhere, at work at low wages rather than start early and spend their little hoards, and be forced to beat a retreat with an empty stomach and blasted hopes. We are fully persuaded that if the main emigration to the mines arrive there between June and the middle of July, it will arrive at a period in which employment may be had, R SPECTPULLY INFORM THE and provisions be found at a living rate From that period, on to the end of the mining season matters may go on prosperously enough; and whether the miners obtain claims or merely work for others, their time and toil will not be wasted in vain, but be paid for in a substantial manner.

By Mike Cohen.

A miner from the Diggings once came down, Whose wretched aspect was perceived by all the

town;
It boots were soleless, and his pants were torn—
In fact, he looked an object, quite forforn—
In fact, he looked an object, quite forforn—
Ite sought a hed—but where to get that hed
Ite did not know, nor where to rest his head;
While pondering this, a good sight met his view;
The El Dorado Beds—price 50 cents, and 5 and 25

too.

'Let's have a quarter's worth, 'our miner said, and a quarter's worth, 'our miner said, and, quick as thought, he soon in bed was laid. The more refreshed, for he had doffed his clothes, howe pants he did not wish again to wear, and thought perhaps his host would send out for a pair;

"What, Mike, you in this line!" our miner said:
"Then bring me up some pants, and something for
my head."
Mike brought them up, and quick as thought,
Our friend the miner a new soit had bought,
Paid down his money, then, looking in the glass,
His compliments to Mike he thus did pass:
"Whene'er a man wants rigging out in something
new.

For little money, Mike. I'll send him straight to

you.

And now, friend, Mike, pray tell me where
For breakinst I can get good inre?"

"It is but next door, a Restaurant I keep;"
Says Mike, "and you will find it good and cheap!,
The miner went, and breakinst had,
And said that for a quarter 'twasm't bad;
For Mike, I see, knows how to do the trade,
And put all others right into the shade.

I have no disposition to urge, or even invite persons to leave comfortable homes, or flatter ing prospects in other countries. My correspondence since my arrival here has been chiefly addressed officially through you to the Missionary Committee, and nothing that you have published from my pen devolves upon me any responsibility as advising emigration to these colonies. Much opprobum has been cast upon some of my colleagues by parties whose anticipations of success have not been realized during the past season. I cannot refrain from saying, that I have not seen any thing in their communications meriting the denunciations uttered and written by disappointed men.

None can sympathize more deeply than myself with many of our Canadian friends who have failed to meet with remnneration for their toil and expenditure in visiting the mines. In some cases, this is attributable in some vargue sense to the want of that good
